

Dr. Tom Van Doren is Professor Emeritus of Electrical and Computer Engineering at the Missouri University of Science & Technology (formerly University of Missouri-Rolla) and a founding member of the MS&T EMC Laboratory.

He has conducted research and education in electromagnetic compatibility for the past 26 years. More than **18,000 engineers** and technicians from **105 companies and government agencies** have attended his “**Grounding and Shielding**” and “**Circuit Board Layout**” courses.

Currently, 14 corporations are sponsoring EMC related research projects at the MS&T EMC Laboratory.

Intel	Hau Wei	Altera
IBM	Apple (2)	NEC
Zuken	Seimens	RIM
Sony	Cisco(3)	John Deere
LG	Nvidia	

Past sponsors of research.

General Motors	AVX	Chrysler
NCR	Microsoft	Quad Design
Italia	Hitachi	INCASES
Chomerics	Freescale	

Dr. Van Doren has received

- two outstanding teacher awards from MS&T
- the Richard R. Stoddard award from the IEEE EMC Society for contributions to EMC technology and education,
- and is a Fellow of the IEEE.

Much of his professional work has been devoted to helping engineers understand, diagnose, and reduce problems with signal integrity and electrical interference.
